# ASTROCADE UNVEILS SOCCER/DRIBBLING VIDEO GAME CARTRIDGE AT CES

CHICAGO--Astrocade, Inc. (formerly Astrovision, Inc.) unveiled today its SOCCER/DRIBBLING video game cartridge at the Consumer Electronics Show here today.

SOCCER/DRIBBLING is licenced from Model/Racing USA, Inc., an Italian firm. It is a version of the Dribbling arcade game, which has been very popular in Europe and was recently introduced in U.S. arcades.

"SOCCER/DRIBBLING is the fastest-action soccer game on the market," according to Action Graphics president Robert Ogdon, supplier of the game to Astrocade. "It also has the feel and speed of the popular foosball game," he added.

SOCCER/DRIBBLING lets you dribble, pass, shoot (kick) and do everything a soccer player can do in a real game.

It can be played only on the Astrocade home video game. One to four players can play. SOCCER/DRIBBLING will be available this Fall at Astrocade dealers, priced at $34.95.
